

# HIGH SCHOOL COURSE RECOMMENDATIONS

## **Bible**

4 years recommended.

## **English**

(Composition and American or English Literature)

4 years required for graduation as well as for college admission.

## **Mathematics**

(Algebra, Geometry, Calculus, Advanced Math, Consumer Math, Business Math)

2 years required for graduation; 4 years required for college.

## **Social Sciences**

(U.S. History, World History, American Government, Economics)

3 years are required; full year courses of U.S. and World History, and one year combination of Government and Economics.

## **Science**

(Biology, Chemistry, Physics, Geology, Botany or other)

Biology and Chemistry usually required, and should include lab work; 3 years laboratory science required for college.

## **Foreign Language**

Colleges require 2 years of the same language; ASL sign language may be acceptable.

## **Physical Education**

2-4 years recommended.

## **Fine Arts**

(Art, Music, Drama)

Varying requirements, but plan on at least one year of fine arts.

## **Driver's Education**

Recommended for all students.

## **Electives**

(Typing, Computer, Home Economics, Wood & Metal Shop, Agriculture)

A computer class is highly recommended. Typing/keyboarding skills are almost a necessity.

## **Miscellaneous**

Critical thinking skills, character development, and interpersonal skills are also important.
